

- To define the week the schedule must be loaded in DPS (see Schedule Load crib sheet).
- As long as the correct schedule is in DPS, future weeks can be defined.
- Weeks must be defined before mileage variations can be entered into the system.

2. For each day, select the appropriate schedule from the drop down box.

3. A different day of operation from the schedule can be selected. For example, where a Sunday operation runs on a Bank Holiday Monday, choose Sunday.

4. Select to use the Holiday Operation boards in the schedule by ticking here.
